**REPLY BRIEF**

**IN RESPONSE TO EXAMINER'S ANSWER**

**IN SUPPORT OF APPELLANT'S APPEAL**

**TO THE BOARD OF PATENT APPEALS AND INTERFERENCES**

Sir:

Pursuant to the Examiner's Answer mailed on May 5, 2006, Appellant hereby submits this Reply Brief in support of their Appeal from the Final Action dated June 2, 2005. Appellant respectfully requests consideration of this Appeal by the Board of Patent Appeals and Interferences for allowance of the claims in the above-captioned patent application.

## **VII. ARGUMENT**

With respect to the Claim Chart for Claim 1, the Examiner's Answer dated 5/5/06 asserts that "wherein the second processor is capable of initiating the wireless communication independently of the first processor" is taught in column 5, lines 45-49 of Isokoff. Applicant respectfully points out that the cited communication in Isokoff only refers to incoming communications, in particular, an incoming data or fax call. An incoming wireless communication is not a wireless communication initiated by the second processor.

With respect to the Claim Chart for Claim 11, the Examiner's Answer asserts that "wherein the wireless subsystem to initiate a wireless communication with the data from the user independent of the application subsystem" is taught in column 5, lines 45-49 of Isokoff. As illustrated above, receiving an incoming wireless communication is not the same as initiating a wireless communication. Further, Claim 11 recites "a wireless communication with the data from the user." An incoming fax with data from a remote user of the wireless network is initiated remotely, and not initiated by the receiving system.

With respect to the Claim Chart for Claim 18, the Examiner's Answer asserts that "to initiate a wireless communication independent of the application subsystem" is taught in column 5, lines 45-66 of Isokoff. As illustrated above, receiving an incoming wireless communication is not the same as initiating a wireless communication.

**Conclusion**

Appellant respectfully submits that all the pending claims in this patent application are patentable and request that the Board of Patent Appeals and Interferences overrule the Examiner and direct allowance of the rejected claims.

If any fee insufficiency or overpayment is found, please charge any insufficiency or credit any overpayment to Deposit Account No. 02-2666.

Respectfully submitted,

Intel Corporation
